

POST-GRADUATE COURSE

"Essentials of TEVAR: Contemporary Techniques for Thoracic Aortic Disease"

DESCRIPTION

This course will provide attendees with peer-to-peer education on the fundamentals of contemporary techniques for patients suffering from various diseases of the thoracic and thoraco-abdominal aorta, including treatment options, patient selection criteria, and best clinical practices.

Hands-on experience on TEVAR demos, case reviews, and discussions will supplement the theoretical part of the course.

TARGET

This course is designed for physicians and specialists wishing to expand their knowledge in the treatment of thoracic and thoraco-abdominal aorta, in particular:

- Vascular surgeons
- Interventional radiologists
- Interventional cardiologists
- Fellows and Residents
- Biomedical engineers
- Product specialists

OBJECTIVES

By the end of this course, participants will be able to:

- Understand the treatment options for thoracic aortic diseases
- Understand the procedural steps of thoracic stent-graft implantation
- Understand proper patient selection criteria and sizing for thoracic stent-graft
- Understand access challenges, spinal drain, and spinal cord prevention for TEVAR
- Practice TEVAR procedural steps and stent-graft implantation on demos

CME - Continuing Medical Education

The course will be accredited by the Italian Ministry of Health for Vascular, Thoracic, Cardiac, General Surgeons and Interventional Radiologists.
A certificate of attendance will be also provided.

HOW TO REGISTER

Registration fee: € 200,00 (VAT 22% included).

Register @: POST-GRADUATE COURSE
