in-WELCOME GREETINGS

Welcome to the *in*-congress (*in*-terventional, *in*-subria, *in*-novation):

New Frontiers in Interventional Radiology and Endovascular Therapy, a meeting focused on Innovation, aimed to Interventional Radiologists and Vascular Surgeons.

in-SCIENTIFIC PROGRAM

The *in*-scientific program has been planned to collect and spread the most recent innovations. Technological innovations, clinical innovations, novel applications of conventional techniques will be highlighted and discussed by a highly qualified faculty composed of the best Italian interventional radiologists and vascular surgeons. The program includes 14 scientific *in*-sessions, 6 *in*-key honorary lectures of European leaders in Interventional Radiology and Vascular Surgery, 2 industry focuses. The congress will last two days, the first dedicated to Interventional Radiology, the second to Endovascular Therapy (*see in-session modalities, recommendations, for moderators/speakers/discussants and slides preparation*).

in-INNOVATION CHALLENGE

At the end of the scientific program, the audience will vote for the best innovative young scientific communication for Interventional Radiology, the best innovative young scientific communication for Endovascular Therapy, the 2022-23 best innovative Italian paper for Interventional Radiology, the 2022-23 best innovative Italian paper for Endovascular Therapy, selected and proposed by 3 experts for each competition. The best 4 “innovators” will be awarded at the end of the *in*-congress (*see in-innovation challenge rules and summary table of in-innovation challenge*).

in-ENTERTAINMENT

Participants will have the opportunity to dive into an innovative atmosphere made of images, lights, sounds, flavours which we hope will make the intervals between presentations more enjoyable (*see in-entertainment organization*).

in-congress opening, first day, interventional

8.00	Participants registration
9.00-9.15	Greetings Local Authorities <i>Prof. Angelo Tagliabue (Insubria University Rector)</i> <i>Dr. Giuseppe Micale (ASST-Settelaghi, General Manager Director)</i> <i>Dr. Lorenzo Maffioli (ASST-Settelaghi, Chief Medical Officer)</i>
9.15-9.30	Greetings SIRM Authorities <i>Prof. Andrea Giovagnoni (SIRM President)</i> <i>Dr. Laura Forzenigo (SIRM, Lombardia region, President)</i> <i>Prof. Francesco De Cobelli (SIRM, Interventional Radiology Section-ICIR, Vice-President)</i>
9.30-9.40	Greetings in-Presidents <i>Dr. Maurizio Cariati</i> <i>Prof. Matteo Tozzi</i> <i>Prof. Massimo Venturini</i>
9.40-9.45	Insubria: roots and perspectives of a young University on its 25th anniversary <i>Prof. Giulio Carcano (Insubria University)</i>

in-key honorary lecture A**Moderator:** *Andrea Giovagnoni*

9.45	Interventional Radiology and Immunotherapy <i>Gianpaolo Carrafiello</i> <i>"Too strange to believe"</i>
------	----------------------------------------------------------------------------------------------------------------------

INTERVENTIONAL RADIOLOGY DAY

in-session 1

NFs IN INTERVENTIONAL ONCOLOGY: COMBINED APPROACHES INCLUDING ABLATION

Moderators: *Maurizio Cariati, Massimo Venturini*

10.00	Ablation and laparoscopic surgery in colorectal liver metastases management Speaker: <i>Francesco De Cobelli</i> , Discussant: <i>Laura Crocetti</i>
10.11	Balloon-occluded ablation and TACE in unresectable, large HCC Speaker: <i>Roberto Iezzi</i> , Discussant: <i>Pierleone Lucatelli</i>
10.22	Ablation and immunotherapy in lung tumours Speaker: <i>Anna Maria Ierardi</i> , Discussant: <i>Rosario Francesco Grasso</i>
10.33	Ablation and surgery in malignant thyroid tumours management Speaker: <i>Giovanni Mauri</i> , Discussant: <i>Rosa Cervelli</i>
10.44	General Discussion

in-session 2

NFs IN INTERVENTIONAL ONCOLOGY: ALTERNATIVE APPROACHES

Moderators: *Irene Bargellini, Alfonso Marchianò*

11.00	Glass vs Resin vs Holmium microspheres in TARE for HCC Speaker: <i>Carlo Spreafico</i> , Discussant: <i>Irene Bargellini</i>
11.11	DSM-TACE vs immunotherapy vs Sorafenib in intermediate HCC Speaker: <i>Roberto Iezzi</i> , Discussant: <i>Serena Carriero</i>
11.22	TACE vs TARE vs combined approaches in unresectable cholangiocarcinoma Speaker: <i>Cristina Mosconi</i> , Discussant: <i>Giorgio Greco</i>
11.33	MWA vs RFA vs cryoablation in renal tumours Speaker: <i>Andrea Veltri</i> , Discussant: <i>Eliodoro Faiella</i>
11.44	General Discussion

in-session 3**NFs IN INTERVENTIONAL ONCOLOGY: INNOVATIVE APPROACHES AND FUTURE PERSPECTIVES**Moderators: *Gianpaolo Carrafiello, Chiara Floridi*

12.00	Fusion imaging, augmented reality and new guidance systems in interventional oncology Speaker: <i>Rosario Francesco Grasso</i> , Discussant: <i>Giovanni Mauri</i>
12.11	Future perspectives in microballoon interventions of liver tumours Speaker: <i>Pierleone Lucatelli</i> , Discussant: <i>Carlo Spreafico</i>
12.22	Future perspectives in TARE and combined approaches in liver metastases Speaker: <i>Irene Bargellini</i> , Discussant: <i>Cristina Mosconi</i>
12.33	Future perspectives in ablation techniques and combined approaches in solid tumours Speaker: <i>Laura Crocetti</i> , Discussant: <i>Chiara Floridi</i>
12.44	General Discussion

in-key honorary lecture BModerator: *Paolo Fonio*

13.00	Update in iodinated contrast medium and CO2 in diabetic, nephropathic patients with CLTI <i>Marco Manzi</i> "CO2 in CLTI revascularization: is iodinated contrast free-procedure only a dream?"
13.15-14.00	Lunch

in-session 4

NFs IN EMBOLIZATION: NEW APPLICATIONS, NEW DEVICES, NEW DISTRICTS

Moderators: *Antonio Basile, Pietro Quaretti*

14.00	New and different applications of micro vascular plug Speaker: <i>Francesco Giurazza</i> , Discussant: <i>Anna Maria Ierardi</i>
14.11	New applications of non-adhesive, EVOH-based liquid embolic agents in extra-cranial and extra-vascular districts Speaker: <i>Massimo Venturini</i> , Discussant: <i>Claudio Sallemi</i>
14.22	Prostatic interventional radiological management: embolization vs ablation Speaker: <i>Antonio Rampoldi</i> , Discussant: <i>Gianluigi Patelli</i>
14.33	Hemorrhoids embolization: superior rectal arteries alone? Coils? Particles? Speaker: <i>Alberto Rebonato</i> , Discussant: <i>Massimo Venturini</i>
14.44	General Discussion

in-session 5

NFs IN INTERVENTIONAL RADIOLOGICAL MANAGEMENT OF COMPLEX HEPATO-BILIARY DISEASES: INNOVATIVE MODALITIES

Moderators: *Roberto Cioni, Francesco De Cobelli*

15.00	Tips and tricks in complex TIPS: trans-splenic approach and other peculiar modalities Speaker: <i>Antonio Rampoldi</i> , Discussant: <i>Filippo Piacentino</i>
15.11	Embolization to optimize future liver remnant increase in major hepatectomy and ALPSS Speaker: <i>Angelo Della Corte</i> , Discussant: <i>Alessandro Lunardi</i>
15.22	Innovative interventional radiological management in liver transplanted patients Speaker: <i>Alberta Cappelli</i> , Discussant: <i>Ludovico Dulcetia</i>
15.33	Innovative interventional radiological management in pediatric patients Speaker: <i>Paolo Marra</i> , Discussant: <i>Carmelo Migliorisi</i>
15.44	General Discussion

Interventional Radiology industry focus

Moderator: *Federico Fontana*

16.00	T.B.D.
-------	--------

in-session 6

NFs IN EXTRA-VASCULAR INTERVENTIONAL RADIOLOGY: INNOVATIVE MODALITIES, TECHNOLOGIES AND APPROACHES

Moderators: *Roberto Candelari, Emanuela Giampalma*

17.00	Liquid vs tissue biopsy for biomarkers collection in interventional oncology
-------	-------------------------------------------------------------------------------------

Speaker: *Marco Calandri*, Discussant: *Giada Zorzetto*

17.11	Dual-layer spectral-CT in lung biopsy: more diagnostic sampling and biomarker information with new reconstruction systems and Z-effective images?
-------	----------------------------------------------------------------------------------------------------------------------------------------------------------

Speaker: *Filippo Piacentino*, Discussant: *Carolina Lanza*

17.22	Innovative strategies for management of biliary complications
-------	----------------------------------------------------------------------

Speaker: *Giancarlo Mansueto*, Discussant: *Fabio Melchiorre*

17.33	Innovative strategies for management of urological complications
-------	-------------------------------------------------------------------------

Speaker: *Andrea Coppola*, Discussant: *Ruggero Vercelli*

17.44	General Discussion
-------	---------------------------

in-session 7

NFs IN MUSCOLOSKELETAL AND NEUROSPINAL INTERVENTIONAL PROCEDURES:
WHAT IS NEW?

Moderators: *Eugenio Annibale Genovese, Salvatore Masala*

18.00	Innovative interventional procedures to treat shoulder pain Speaker: <i>Luca Maria Scofienza</i> , Discussant: <i>Leonardo Callegari</i>
18.11	Augmented reality in bone interventional procedures Speaker: <i>Domenico Albano</i> , Discussant: <i>Mauro Gallazzi</i>
18.22	Genicular arteries embolization in osteoarthritis Speaker: <i>Giancarlo Facchini</i> , Discussant: <i>Lorenzo Paolo Moramarco</i>
18.33	New frontiers in treatment of lumbar spinal stenosis and instability: interspinous devices Speaker: <i>Stefano Marcia</i> , Discussant: <i>Fabio Baruzzi</i>
18.44	General Discussion

in-key honorary lecture C

Moderator: *Matteo Tozzi*

19.00	The new era of the endovascular creation of AVF <i>Nicholas Inston</i> “They are not the strongest species that survive, nor the most intelligent, but the ones who are most responsive to change”
19.15	in-Interventional Radiology day closing

in-congress, second day, endovascular

7.30	Participants registration
8.00-8.15	Greetings Local Authorities <i>Prof. Luigina Guasti (Insubria, DMC Director)</i> <i>Prof. Luigi Valdatta (Insubria, DBSV Director)</i> <i>Prof. Giulio Carcano (Insubria, DIMIT)</i> <i>Prof. Alberto Passi (Insubria, School of Medicine President)</i>
8.15-8.20	Greetings SICVE President <i>Dr. Gaetano Lanza</i>
8.20-8.30	Greetings in-Presidents <i>Dr. Maurizio Cariati</i> <i>Prof. Matteo Tozzi</i> <i>Prof. Massimo Venturini</i>

in-key honorary lecture D-E

Moderators: *Patrizio Castelli, Roberto Chiesa*

8.30	Innovative technology in ascending and arch aortic pathology <i>Santi Trimarchi</i> <i>"Aorta technology is coming slow but it is on its way"</i>
8.45	FORS technology in aortic intervention <i>Joost A. van Herwaarden</i> <i>"Fiber optical technology improves endovascular navigation in aortic procedures while reducing radiation"</i>

ENDOVASCULAR THERAPY DAY

in-session 8

NFs IN AORTIC DISEASE: WHAT IS NEW?

Moderators: *Maurizio Cariati, Carlo Pratesi*

9.00	Endograft fenestration in complex aortic pathology Speaker: <i>Giovanni Pratesi</i> , Discussant: <i>Federico Fontana</i>
9.11	Innovative technologies in EVAR Speaker: <i>Michele Antonello</i> , Discussant: <i>Giovanni Nano</i>
9.22	Clinical significance of sac shrinkage after EVAR Speaker: <i>Yamume Tshomba</i> , Discussant: <i>Enrico Gallitto</i>
9.33	New frontiers (fusion imaging, IVUS, CO2) for TEVAR/EVAR optimization Speaker: <i>Mauro Gargiulo</i> , Discussant: <i>Mario D'Oria</i>
9.44	General Discussion

in-session 9

NFs IN INNOVATIVE ENDOVASCULAR MANAGEMENT OF COMPLEX EMERGENCIES: WHAT IS NEW?

Moderators: *Gabriele Piffaretti, Michele Rossi*

10.00	Ruptured aortic aneurysms: innovative endovascular management Speaker: <i>Antonio Freyre</i> , Discussant: <i>Daniele Mascia</i>
10.11	Acute aortic dissection: innovative endovascular management Speaker: <i>Andrea Kahlberg</i> , Discussant: <i>Aaron Thomas Fargion</i>
10.22	Ruptured visceral aneurysms and pseudoaneurysms: innovative endovascular management Speaker: <i>Massimo Venturini</i> , Discussant: <i>Stefano Michelagnoli</i>
10.33	Acute pulmonary embolism: innovative endovascular management Speaker: <i>Gianpaolo Carrafiello</i> , Discussant: <i>Umberto Rossi</i>
10.44	General Discussion

in-session 10**NFs AND TECHNOLOGICAL INSIGHTS IN ENDOVASCULAR MANAGEMENT OF ARTERIAL OCCLUSIVE DISEASES****Moderators:** *Mauro Gargiulo, Matteo Tozzi*

11.00	New frontiers in aorto-iliac district with chronic total occlusions Speaker: <i>Raffaele Pulli</i> , Discussant: <i>Domenico Angiletta</i>
11.11	New frontiers in “full metal jacket” and innovative approaches in superficial femoral district with chronic total occlusions and/or calcified plaques Speaker: <i>Domenico Laganà</i> , Discussant: <i>Francesco Setacci</i>
11.22	New frontiers in tibial district of diabetic patients with calcified chronic total occlusions Speaker: <i>Marco Manzi</i> , Discussant: <i>Filippo Benedetto</i>
11.33	New frontiers in arterialization of the venous system in no-option patients with CLTI Speaker: <i>Roberto Ferraresi</i> , Discussant: <i>Maria Cristina Cervarolo</i>
11.44	General Discussion

in-session 11**NFs IN COMPLEX STENOSIS AND DRUG-ELUTING TECHNOLOGY: NEW APPROACHES, NEW DISTRICTS****Moderators:** *Alfredo Ruggero Galassi, Andrea Macchi*

12.00	New frontiers in carotid district with complex stenosis Speaker: <i>Gianluca Faggioli</i> , Discussant: <i>Efrem Civilini</i>
12.11	New frontiers in drug-eluting technology in coronary occlusions Speaker: <i>Matteo Montorfano</i> , Discussant: <i>Andrea Macchi</i>
12.22	New frontiers in drug-eluting technology in arterio-venous fistulas Speaker: <i>Matteo Tozzi</i> , Discussant: <i>Domenico Patanè</i>
12.33	New frontiers in drug-eluting technology in erectile dysfunction Speaker: <i>Giuseppe Sangiorgi</i> , Discussant: <i>Federico Dehò</i>
12.44	General Discussion

in-key honorary lecture F**Moderator:** *Massimo Venturini*

13.00	New frontiers and applications in glue embolization <i>Romarc Loffroy</i> “The problem is not the glue but the guy who injects it”
13.15-14.00	Lunch

in-session 12

NFs IN VENOUS DISEASES: INNOVATIVE AND ALTERNATIVE ENDOVASCULAR APPROACHES

Moderators: *Antonio Basile, Marzia Lugli*

14.00	Percutaneous/endovascular AVF creation: tips and tricks Speaker: <i>Federico Fontana</i> , Discussant: <i>Domenico Patanè</i>
14.11	Innovative strategies in iliocaval obstruction recanalization Speaker: <i>Domenico Bacellieri</i> , Discussant: <i>Filippo Piacentino</i>
14.22	Innovative strategies in pelvic congestion syndrome endovascular management Speaker: <i>Antonio Basile</i> , Discussant: <i>Giulio Lombardi</i>
14.33	Innovative strategies in endovenous ablative techniques Speaker: <i>Chiara Lomazzi</i> , Discussant: <i>Luca Apruzzi</i>
14.44	General Discussion

in-session 13

NFs IN NEUROVASCULAR DISEASES: INNOVATIVE APPROACHES AND INDICATIONS

Moderators: *Mauro Bergui, Luca Valvassori*

15.00	Update in stroke management Speaker: <i>Stefano Vallone</i> , Discussant: <i>Guglielmo Pero</i>
15.11	Flow-diverter stents: innovative indications Speaker: <i>Concetto Cristaudo</i> , Discussant: <i>Giuseppe Craparo</i>
15.22	Intrasaccular flow disruption for intracranial aneurysms: what is new? Speaker: <i>Andrea Giorgianni</i> , Discussant: <i>Giuseppe Guzzardi</i>
15.33	Future perspectives in neurovascular procedures using robot and artificial intelligence Speaker: <i>Pasquale Mordasini</i> , Discussant: <i>Simone Comelli</i>
15.44	General Discussion

Endovascular Therapy industry focus

Moderator: *Gabriele Piffaretti*

16.00	T.B.D.
-------	--------

in-session 14

NFs IN INTERVENTIONAL RADIOLOGY AND ENDOVASCULAR THERAPY OF THE LAST 6 MONTHS: WHAT IS NEW?

Moderators: *Matteo Tozzi, Massimo Venturini*

17.00	Interventional innovation of the last 6 months
-------	-------------------------------------------------------

Speaker: *T.B.D.*, Discussant: *Massimo Venturini*

17.11	Endovascular innovation of the last 6 months
-------	-----------------------------------------------------

Speaker: *T.B.D.*, Discussant: *Matteo Tozzi*

17.22	General Discussion
-------	---------------------------

***in*-BEST YOUNG INNOVATIVE INTERVENTIONAL COMMUNICATION**

Moderators: *Cristina Mosconi, Filippo Piacentino*

17.30	First innovative communication <i>proposed by Marco Calandri</i>
17.35	Second innovative communication <i>proposed by Francesco Giurazza</i>
17.40	Third innovative communication <i>proposed by Pierleone Lucatelli</i>

***in*-BEST YOUNG INNOVATIVE ENDOVASCULAR COMMUNICATION**

Moderators: *Andrea Kahlberg, Gabriele Piffaretti*

17.45	First innovative communication <i>proposed by Filippo Benedetto</i>
17.50	Second innovative communication <i>proposed by Mario D'Oria</i>
17.55	Third innovative communication <i>proposed by Enrico Gallitto</i>

***in*-BEST INNOVATIVE ITALIAN INTERVENTIONAL PAPER 2022-23**

Moderators: *Maurizio Cariati, Matteo Tozzi, Massimo Venturini*

18.00	First innovative paper <i>proposed and presented by Gianpaolo Carrafiello</i>
18.03	Second innovative paper <i>proposed and presented by Francesco De Cobelli</i>
18.06	Third innovative paper <i>proposed and presented by Rita Golfieri</i>

***in*-BEST INNOVATIVE ITALIAN ENDOVASCULAR PAPER 2022-23**

Moderators: *Maurizio Cariati, Matteo Tozzi, Massimo Venturini*

18.09	First innovative paper <i>proposed and presented by Michele Antonello</i>
18.12	Second innovative paper <i>proposed and presented by Mauro Gargiulo</i>
18.15	Third innovative paper <i>proposed and presented by Santi Trimarchi</i>

VOTES AND AWARDS

18.18	<i>in</i> -BEST YOUNG INNOVATIVE INTERVENTIONAL COMMUNICATION
18.21	<i>in</i> -BEST YOUNG INNOVATIVE ENDOVASCULAR COMMUNICATION
18.24	<i>in</i> -BEST INNOVATIVE ITALIAN INTERVENTIONAL PAPER 2022-2023
18.27	<i>in</i> -BEST INNOVATIVE ITALIAN ENDOVASCULAR PAPER 2022-2023

in-congress CLOSING

Presidents Maurizio Cariatì, Matteo Tozzi, Massimo Venturini

18.30	Closing Remarks
-------	-----------------

...thank you for participating!
We look forward to welcoming you
to the next *in*-congress in 2025!

in-session modalities, recommendations for moderators/speakers/discussants and slides preparation

in-congress consists of 14 *in-sessions*, 6 *in-key* honorary lectures, 2 industry focuses and an *in-innovation* challenge at the end of the congress. Each one-hour *in-session* is made of 4 presentations with 2 moderators, 4 speakers and 4 discussants. Each speaker has 8 minutes to present their slides (slides in English, talk in Italian or English). At the beginning of each session discussants will sit at the panel table together with the moderators. At the end of each presentation 3 minutes will be dedicated to a short discussion between discussant and speaker: the discussant may ask up to 2 questions to the speaker before moving on to the next presentation. At the end of the 4 presentations, the moderators will open the general discussion which will last up to 15 minutes and will be expected to ask questions and also to involve the audience in the discussion. The moderators will also be expected to rigorously oversee: if necessary, the general discussion will have to be shortened. A strict compliance with the presentation time for both speakers (8 minutes) and discussants (3 minutes) is strongly recommended: the speakers will be

notified at the end of the 8 minutes. At the exact ninth minute of the presentation the slides will disappear from the screen. In this case discussants, will be allowed to ask the speaker just one question. Presentation video clips lasting 90 seconds of a procedure of one of the 4 speakers, will be broadcasted before each session according to the *in-entertainment* modalities. The *in-key* honorary lectures will have one moderator and one speaker and will last 15 minutes: in this time, moderators will be allowed to ask the speaker up to 2 questions. Industry focus sessions consist of 6 presentations each day for a total of 12 presentations (10 minutes), proposed by the companies and approved by the *in-congress* scientific committee. Moderators of *in-key* honorary lectures and industry focuses must oversee to that presentation times are respected. Slides preparation must comply with the *in-congress* template: a maximum of 15 slides for the presentations and 30 slides for the *in-key* honorary lectures is highly recommended.

in-innovation challenge rules

in-innovation challenge has been conceived to increase the interest of attendees up to the very end of the *in*-congress.

After a preliminary selection by the Faculty and presentations of the speakers, all attendees will be asked to vote for the most young innovative interventional communication, the most young innovative endovascular communication, the 2022-23 most innovative Italian interventional paper, the 2022-23 most innovative Italian endovascular paper.

The 4 best "innovators" will be finally awarded (see summary table of *in*-innovation challenge).

Innovative abstracts in English language must be sent by e-mail

to massimo.venturini@uninsubria.it and federico.fontana@uninsubria.it for interventional;

to matteo.tozzi@uninsubria.it and gabriele.piffaretti@uninsubria.it for endovascular by June 30th.

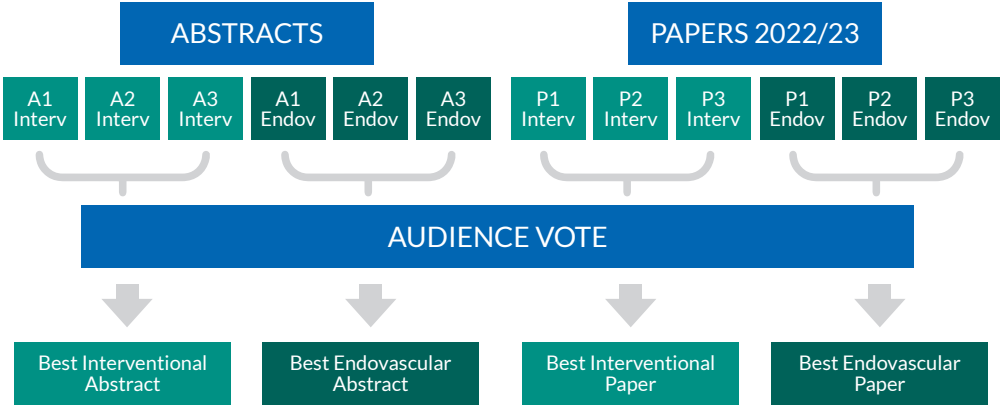

All corresponding authors-potential speakers must be 36-year-old or younger.

Abstracts focused on innovation could involve up to 6 authors and consist of a maximum of 200 words (Background/Aim - Materials/Methods - Results - Conclusions). All interventional abstracts' authors will be blinded and sent out by Massimo Venturini and Federico Fontana to Marco Calandri (Torino), Francesco Giurazza (Napoli) and Pierleone Lucatelli (Roma), while all endovascular abstracts will be blinded

and sent out by Matteo Tozzi and Gabriele Piffaretti to Filippo Benedetto (Messina), Mario D'Oria (Trieste) and Enrico Gallitto (Bologna). Each reviewer will choose their favourite abstract by July 15th. The 6 chosen abstracts will be presented in a 5-minute talk at the *in*-congress by the corresponding/first author (for slides preparation please use the *in*-congress template and the English language, talk in Italian or English).

Gianpaolo Carrafiello (Milano), Francesco De Cobelli (Milano) and Rita Golfieri (Bologna) will select the 2022-23 best innovative Italian interventional paper, while Michele Antonello (Padova), Mauro Gargiulo (Bologna) and Santi Trimarchi (Milano) the 2022-23 best innovative Italian endovascular paper. At the *in*-congress the two selection committees will have 3 minutes to explain the reasons for their choice (1-3 slides, one with the title page of the selected paper published on PubMed). Subsequently the audience will vote for the "4 best innovators" and they will be each awarded by their sponsor (reviewer or professor). Any conflict of interest will be avoided by excluding abstracts-papers of the institutions/hospitals of origin of the reviewers/professors from their specific competition. In this final part of the *in*-congress, the moderators will also be expected to rigorously oversee that presentation timings are respected (*in*-innovation challenge does not include discussions).

Summary table of *in*-innovation challenge

in-entertainment

in-entertainment has been designed and organized by Massimo Venturini with the help of Caterina Corni (modern and oriental art curator), Umberto Corni (professional photographer), Nadia Falcone (soundtrack curator and vocalist), Paolo Marra and Filippo Piacentino (endovascular, interventional, *in*-congress video-clips maker).

The aim of the *in*-entertainment is to create an innovative atmosphere made of images, lights, sounds, flavours that we hope will make the intervals between presentations more enjoyable and pleasant. All the details of the *in*-entertainment will be revealed during the *in*-congress.

VILLE PONTI CONGRESS CENTER, WHERE HISTORY AND MODERNITY MERGE...

The first edition of the *in-congress* will take place in Varese in the evocative atmosphere of Ville Ponti Congress Center.

Ville Ponti Congress Center is a glamour complex, made up three historic houses, Villa Napoleonica, Villa Andrea and Sellerie, surrounded by a large garden with a spectacular view, equipped with the most modern congress technologies, a conference room with 399 seats and 600 parking spaces.

Ville Ponti Congress Center
Piazza Litta 2
21100 Varese IT
