in-WELCOME GREETINGS

Welcome to the second edition of *in*-congress (*in*-terventional, *in*-subria, *in*-novation, *in*-travascular, *in*-terdisciplinary, *in*-ternational):

New Frontiers in Interventional Radiology and Endovascular Therapy, a meeting focused on Innovation, aimed at Radiologists, Vascular Surgeons, Cardiologists and Neuroradiologists.

in-SCIENTIFIC PROGRAM

The *in*-scientific program is planned to collect and spread all the most recent innovations. Technological innovations, clinical innovations, novel applications of conventional techniques will be highlighted and discussed by a truly qualified faculty composed of the best Italian radiologists, vascular surgeons, cardiologists, neuroradiologists and some international leaders.

The program includes 10 scientific *in*-sessions (1-10), 4 *in*-terdisciplinary *in*-sessions (A-D), 8 *in*-key lectures (4 *in*-key honorary lectures, 4 *in*-key interdisciplinary lectures), 2 *in*-dustry focus, a final *in*-novation challenge. Each scientific *in*-session will last, one hour with alternating 4 speakers and 4 discussants and a final general discussion involving 2 moderators and audience (see *in*-session modalities, recommendations for moderators/speakers/discussants and slides preparation).

in-NOVATION CHALLENGE (New frontiers of the next generation)

At the end of the scientific program, 12 innovative scientific communications selected by 3 experts for each competition will be briefly presented and finally voted by the audience. The best 4 “innovators” for interventional/endovascular radiology, neuroradiology, cardiology and vascular surgery will be awarded at the end of the *in*-congress (see *in*-innovation challenge rules).

in-ENTERTAINMENT

All the participants will be immersed in an innovative atmosphere made of images, sounds, flavours, which we hope will make the intervals between presentations more enjoyable (see *in*-entertainment organization).

Adamo Marianna (Brescia)

in-session 1

NFs IN INTERVENTIONAL ONCOLOGY: TEXTBOOK (LONG-TERM) OUTCOME IN LIVER LESIONS MANAGEMENT

Moderators: *Laura Crocetti, Giancarlo Mansueto*

09.00	Textbook outcome after TARE in unresectable HCC Speaker: <i>Irene Bargellini</i> , Discussant: <i>Alberta Cappelli</i>
09.11	Textbook outcome after TACE in unresectable HCC Speaker: <i>Carlo Spreafico</i> , Discussant: <i>Cristina Mosconi</i>
09.22	Long-term outcome of balloon-occluded TACE in unresectable HCC Speaker: <i>Pierleone Lucatelli</i> , Discussant: <i>Roberto Iezzi</i>
09.33	Textbook outcome after hepatectomy and intraoperative MWA for colorectal liver metastases Speaker: <i>Francesco De Cobelli</i> , Discussant: <i>Claudio Sallemi</i>
09.44	General Discussion
09.57	Video-clip <i>in-session 2</i>

in-session 2

NFs IN INTERVENTIONAL ONCOLOGY: COMBINED STRATEGIES AND OUTCOME PREDICTIVE FACTORS IN LIVER LESIONS MANAGEMENT

Moderators: *Roberto Cioni, Alfonso Marchianò*

10.00	Combined TARE and immunotherapy in HCC management Speaker: <i>Alberta Cappelli</i> , Discussant: <i>Laura Maria Cacioppa</i>
10.11	Combined TARE or TACE and immunotherapy in cholangiocarcinoma management Speaker: <i>Cristina Mosconi</i> , Discussant: <i>Irene Bargellini</i>
10.22	“Hug sign” at CBCT to predict short-term response to combined MWA and TACE Speaker: <i>Roberto Iezzi</i> , Discussant: <i>Pierpaolo Biondetti</i>
10.33	Lymphocyte-to-Monocyte Ratio (LMR) as predictive factor for a successful TACE Speaker: <i>Roberto Minici</i> , Discussant: <i>Giulio Lombardi</i>
10.44	General Discussion
10.57	Video-clip <i>in-session 3</i>

in-session 3**NFs IN INTERVENTIONAL ONCOLOGY: INNOVATIVE STRATEGIES IN EXTRA-HEPATIC PERCUTANEOUS ABLATIONS**Moderators: *Rosario Francesco Grasso, Andrea Veltri*

11.00	Innovative strategies in lung nodules ablation Speaker: <i>Marco Calandri</i> , Discussant: <i>Serena Carriero</i>
11.11	Innovative strategies in renal nodules ablation Speaker: <i>Eliodoro Faiella</i> , Discussant: <i>Andrea Coppola</i>
11.22	Innovative strategies in malignant thyroid nodules ablation Speaker: <i>Giovanni Mauri</i> , Discussant: <i>Rosa Cervelli</i>
11.33	Innovative combined treatments in bone metastases ablation Speaker: <i>Claudio Pusceddu</i> , Discussant: <i>Lorenzo Paolo Moramarco</i>
11.44	General Discussion
11.57	Video-clip in-session 4

in-session 4**NFs IN TRANS-ARTERIAL EMBOLIZATION: INNOVATIVE INDICATIONS, STRATEGIES AND EMBOLIC AGENTS**Moderators: *Roberto Candelari, Raffaella Niola*

12.00	Genicular arteries Speaker: <i>Michele Rossi</i> , Discussant: <i>Giancarlo Facchini</i>
12.11	Prostatic arteries Speaker: <i>Emanuela Giampalma</i> , Discussant: <i>Marco Midulla</i>
12.22	Peripheral arteries Speaker: <i>Francesco Giurazza</i> , Discussant: <i>Alberto Rebonato</i>
12.33	Pelvic AVM Speaker: <i>Andrea Discalzi</i> , Discussant: <i>Enrico Paci</i>
12.44	General Discussion
12.57	Video-clip CF: a brief memory of Carlo Fugazzola "That time when...": <i>Gianpaolo Carrafiello, Federico Fontana, Domenico Laganà, Giancarlo Mansueto</i>
13.02	Video-clip RG: a brief memory of Rita Golfieri "That time when...": <i>Alberta Cappelli, Emanuela Giampalma, Cristina Mosconi, Matteo Renzulli</i>
13.07	Lunch
14.00	Video-clip in-terdisciplinary sessions

in-session A

in-terdisciplinary NFs: AI AND TECHNOLOGICAL ADVANCEMENTS FOR DIFFERENT ENDOVASCULAR SPECIALISTS

Moderators: Nicoletta Gandolfo, Franco Grego, Francesco Saia, Alessandra Splendiani

in-key interdisciplinary lecture A (Radiologist)

14.02	AI in radiology and interdisciplinary considerations Speaker: <i>Andrea Giovagnoni, presented by Nicoletta Gandolfo</i>
14.12	Video-clip <i>in-session A</i>
14.15	AI in treatment planning and outcome prediction of liver lesions interventional management Speaker: <i>Gianpaolo Carrafiello</i> , Discussant: <i>Nicoletta Gandolfo</i>
14.26	AI and perfusion softwares in endovascular management of ischemic stroke Speaker: <i>Luigi Cirillo</i> , Discussant: <i>Alessandra Splendiani</i>
14.37	AI and computational fluid dynamics analysis in treatment planning and outcome prediction of aortic aneurysms endovascular management Speaker: <i>Santi Trimarchi</i> , Discussant: <i>Franco Grego</i>
14.48	IVUS and OCT in cardiovascular imaging Speaker: <i>Dario Pellegrini</i> , Discussant: <i>Francesco Saia</i>

in-session B

in-terdisciplinary NFs: ADVANTAGES OF HYBRID ROOMS AVAILABILITY FOR DIFFERENT ENDOVASCULAR SPECIALISTS

Moderators: *Ferdinando Caranci, Gianpaolo Carrafiello, Alberto Menozzi, Fabio Verzini*

in-key interdisciplinary lecture B (Vascular Surgeon)

14.59 **New insights and technical innovations for thoraco-abdominal aortic dissection endovascular management and re-intervention options**

Speaker: *Germano Melissano, presented by Fabio Verzini*

15.09 **Video-clip *in-session B***

15.12 **Combined electrosurgical septotomy and BEVAR for complex post dissection thoraco-abdominal aortic aneurysms**

Speaker: *Giovanni Pratesi, Discussant: Fabio Verzini*

15.23 **Combined endovascular and cardio-surgical management of complex coronary diseases**

Speaker: *Battistina Castiglioni, Discussant: Alberto Menozzi*

15.34 **Combined interventional and surgical management of different thoraco-abdominal diseases**

Speaker: *Paolo Fonio, Discussant: Gianpaolo Carrafiello*

15.45 **Combined endovascular and neuro-surgical management of complex cerebral aneurysm**

Speaker: *Mariangela Piano, Discussant: Ferdinando Caranci*

15.56 **Video-clip *in-dustry focus***

in-dustry focus first day (NON-CME PROGRAM)

Moderators: *Enrico Gallitto, Filippo Piacentino*

15.57 **TBD**

16.57 **Video-clip *in-session 5***

in-session 5

NFs IN CORONARIC AND AORTIC ENDOVASCULAR PROCEDURES PLANNING AND/OR MONITORING: INNOVATIVE CT TECHNOLOGIES AND RECONSTRUCTION SOFTWARES

Moderators: *Ernesto Di Cesare, Chiara Floridi*

17.00	Photon-counting CT in coronary arteries plaque characterization and stent patency ultra-high resolution assessment Speaker: <i>Antonio Esposito</i> , Discussant: <i>Pietro Spagnolo</i>
17.11	Dual-layer Spectral CT in coronary arteries plaque characterization and cardiac ischemic areas assessment Speaker: <i>Tommaso D'Angelo</i> , Discussant: <i>Filippo Piacentino</i>
17.22	Dual-layer Spectral CT in aortic endovascular procedures planning/monitoring: multimodal reconstructions allowing information increase and contrast reduction Speaker: <i>Federico Fontana</i> , Discussant: <i>Velio Ascenti</i>
17.33	CTA and 3D-printed models reconstructions in aortic endovascular procedures planning Speaker: <i>Paolo Perini</i> , Discussant: <i>Santi Trimarchi</i>
17.44	General Discussion
17.58	Video-clip <i>in-session 6</i>

in-session 6**NFs IN INTERVENTIONAL/ENDOVASCULAR STRUCTURAL/CARDIAC PROCEDURES: INNOVATIVE STRATEGIES AND APPLICATIONS**Moderators: *Francesco Bedogni, Salvatore Masala*

18.00	Percutaneous interspinous devices: safety, efficacy, removal and replacement Speaker: <i>Stefano Marcia</i> , Discussant: <i>Francesco Vizzari</i>
18.11	Mitral valve transcatheter edge-to-edge repair: clinical, echocardiographic and functional mid-term outcome Speaker: <i>Marianna Adamo</i> , Discussant: <i>Michele Occhipinti</i>
18.22	Valve-in-valve transcatheter aortic valve implantation: the issues behind crossing a bioprosthesis Speaker: <i>Matteo Montorfano</i> , Discussant: <i>Marco Ferlini</i>
18.33	MR role in planning, guide and monitoring of cardiac ablations Speaker: <i>Armando Fusco</i> , Discussant: <i>Matteo Renzulli</i>
18.44	General Discussion

in-key honorary lecture 2 (Neuroradiologist)Moderator: *Andrea Giorgianni*

18.57	Cerebral AVMs endovascular management: which approaches, which embolic agents? Speaker: <i>Salvatore Mangiafico</i>
19.07	Video-clip in-congress new frontiers closure

in-congress opening, second day

8.00	Participants registration
8.30	Video-clip <i>in</i>-congress new frontiers opening
8.33	<i>in</i>-congress opening, second day <i>Davide Galimberti (Mayor of Varese)</i>
8.36	Greetings Local Authorities <i>Umberto Piarulli (Insubria University, Pro-Rector)</i> <i>Adelina Salzillo (ASST-Settelaghi, Chief medical officer)</i> <i>Luigina Guasti (Insubria University, DMC Director)</i>
8.42	Greetings <i>in</i>-Presidents <i>Gabriele Piffaretti</i> <i>Matteo Tozzi</i>

in-key honorary lecture 3 (Vascular Surgeon)

Moderator: *Maurizio Taurino*

8.47	"Time is aorta" in uncomplicated type B aortic dissection: insights from a European multicenter cross-sectional study Speaker: <i>Mohamad Bashir</i>
8.57	Video-clip <i>in</i>-session 7

in-session 7**NFs IN ANEURYSMS ENDOVASCULAR MANAGEMENT: WHAT IS NEW?**Moderators: *Maurizio Cariati, Roberto Chiesa*

9.00	Fenestrated physician-modified endografts in complex aortic aneurysms Speaker: <i>Michele Piazza</i> , Discussant: <i>Mario D'Oria</i>
9.11	Full-endovascular options in aortic arch aneurysms: physician modified vs custom made endografts Speaker: <i>Andrea Kahlberg</i> , Discussant: <i>Sara Speziali</i>
9.22	Advanced imaging techniques in pre-operative, intra-operative and post-operative aortic aneurysms endovascular management Speaker: <i>Luca Bertoglio</i> , Discussant: <i>Federico Fontana</i>
9.33	Multimodal and combined approaches in visceral artery aneurysms and pseudoaneurysms Speaker: <i>Massimo Venturini</i> , Discussant: <i>Carolina Lanza</i>
9.44	General Discussion
9.57	Video-clip in-session 8

in-session 8**NFs IN PERIPHERAL OCCLUSIVE DISEASES MANAGEMENT: WHAT IS NEW?**Moderators: *Domenico Laganà, Raffaele Pulli*

10.00	Stent choice in femoro-popliteal district Speaker: <i>Filippo Benedetto</i> , Discussant: <i>Daniele Mascia</i>
10.11	IVL role in femoro-popliteal district Speaker: <i>Stefano Fazzini</i> , Discussant: <i>Stefano Michelagnoli</i>
10.22	Mid Long-term outcome in percutaneous deep-vein arterialization using in no option patients with CLTI Speaker: <i>Alessandro Ucci</i> , Discussant: <i>Fabio Melchiorre</i>
10.33	Impact of “Woundosome” concept on procedural outcome in CLTI Speaker: <i>Marco Manzi</i> , Discussant: <i>Carmelo Migliorisi</i>
10.44	General Discussion
10.57	Video-clip in-session 9

in-session 9

NFs IN MECHANICAL THROMBECTOMY: WHAT IS NEW?

Moderators: *Roberta Della Bona, Massimo Sponza*

11.00	Mechanical thrombectomy in acute limb ischemia: indications and combined strategies Speaker: <i>Gianmarco de Donato</i> , Discussant: <i>Francesco Setacci</i>
11.11	Mechanical thrombectomy in pulmonary embolism: indications and combined strategies Speaker: <i>Anna Maria Ierardi</i> , Discussant: <i>Luca Cabrini</i>
11.22	Mechanical thrombectomy in distal cerebral arteries and in low NIHSS Speaker: <i>Paolo Remida</i> , Discussant: <i>Umberto Rossi</i>
11.33	Mechanical thrombectomy in cerebral venous sinus: when and why? Speaker: <i>Andrea Gioppo</i> , Discussant: <i>Camilla Micieli</i>
11.44	General Discussion
11.57	Video-clip <i>in-session 10</i>

in-session 10**NFs IN DRUG-ELUTING TECHNOLOGY: WHAT IS NEW?**Moderators: *Antonio Colombo, Matteo Tozzi*

12.00	New frontiers of DES in CTO Speaker: <i>Alessio La Manna</i> , Discussant: <i>Lucia Barbieri</i>
12.11	New frontiers of DEB in complex PCI Speaker: <i>Stefano Galli</i> , Discussant: <i>Giuseppe Massimo Sangiorgi</i>
12.22	New frontiers of DEB in failing hemodialytic arterio-venous fistulas Speaker: <i>Domenico Patanè</i> , Discussant: <i>Maria Cristina Cervarolo</i>
12.33	New frontiers of DEB in erectile dysfunction Speaker: <i>Giuseppe Massimo Sangiorgi</i> , Discussant: <i>Federico Dehò</i>
12.44	General Discussion

in-key honorary lecture 4 (Cardiologist)Moderator: *Francesco Saia*

12.57	Drug-coated balloons in coronary artery diseases Speaker: <i>Antonio Colombo</i>
13.07	Lunch
14.00	Video-clip <i>in-terdisciplinary sessions</i>

in-session C

in-terdisciplinary NFs: INNOVATIVE STRATEGIES/DEVICES IN LIFE-SAVING PROCEDURES IN EMERGENCY FOR DIFFERENT ENDOVASCULAR SPECIALISTS

Moderators: *Battistina Castiglioni, Mauro Gargiulo, Giancarlo Mansueto, Luca Valvassori*

in-key interdisciplinary lecture C (Cardiologist)

14.02	Expanding treatment era: the challenges of redo-transcatheter aortic valve replacement Speaker: <i>Giuseppe Musumeci, presented by Battistina Castiglioni</i>
14.12	Video-clip <i>in-session C</i>
14.15	Innovative strategies in cardiogenic shock endovascular management Speaker: <i>Italo Porto</i> , Discussant: <i>Battistina Castiglioni</i>
14.26	Interventional radiological and interdisciplinary management in emergency of acute mesenteric ischemia Speaker: <i>Antonello Basile</i> , Discussant: <i>Giancarlo Mansueto</i>
14.37	Innovative devices in hemorrhagic stroke Speaker: <i>Dikran Mardighian</i> , Discussant: <i>Luca Valvassori</i>
14.48	Off-the-shelf preloaded inner branch devices for urgent endovascular thoraco-abdominal aortic repair Speaker: <i>Michele Antonello</i> , Discussant: <i>Mauro Gargiulo</i>

in-session D

in-terdisciplinary NFs: INNOVATIVE STRATEGIES/DEVICES IN COMPLEX ELECTIVE PROCEDURES FOR DIFFERENT ENDOVASCULAR SPECIALISTS

Moderators: Nicoletta Anzalone, Roberto De Ponti, Yamume Tshomba, Massimo Venturini

in-key interdisciplinary lecture D (Neuroradiologist)

14.59 **CSF-venous leak responsible for spontaneous intracranial hypotension treated by endovascular venous route**

Speaker: *Mauro Bergui, presented by Nicoletta Anzalone*

15.09 **Video-clip *in-session D***

15.12 **Flow-diverting stent in complex cerebral aneurysms**

Speaker: *Luca Valvassori*, Discussant: *Nicoletta Anzalone*

15.23 **Innovative devices in complex highly calcified coronary stenoses**

Speaker: *Alessio Mattesini*, Discussant: *Roberto De Ponti*

15.34 **Combined strategies and approaches in ilio-caval obstruction recanalization**

Speaker: *Domenico Baccellieri*, Discussant: *Yamume Tshomba*

15.45 **Combined strategies and approaches in complex TIPS in pediatric patients**

Speaker: *Paolo Marra*, Discussant: *Massimo Venturini*

15.56 **Video-clip *in-dustry focus***

in-dustry focus second day (NON-CME PROGRAM)

Moderators: *Andrea Macchi, Carlo Pellegrino*

15.57 **TBD**

16.57 **Video-clip *The next generation***

-------	--

***in*-session modalities, recommendations for moderators/speakers/discussants and slides preparation**

In-congress (“*New frontiers in interventional radiology and endovascular therapy*”) includes 14 *in*-sessions (10 scientific *in*-sessions, 4 interdisciplinary *in*-sessions), 8 *in*-key lectures (4 *in*-key honorary lectures, 4 *in*-key interdisciplinary lectures), 2 *in*-dustry focus and 1 final *in*-novation challenge. Each one-hour scientific *in*-session consists of 4 presentations with 2 moderators, 4 speakers and 4 discussants. Each speaker has 8 minutes to present their slides (slides in English, talk in Italian or English). At the beginning of each session discussants will sit at the panel table together with the moderators. At the end of each presentation 3 minutes will be dedicated to a short discussion between the discussant and the speaker. The discussant may ask the speaker up to 2 questions before moving on to the next presentation. At the end of the 4 presentations, the moderators will open the general discussion, which will last up to 13 minutes. They are expected to ask questions and engage the audience in the discussion. The moderators will also be expected to strictly manage the session. If necessary, the general discussion will be shortened. Strict adherence to the presentation time is strongly recommended for both speakers (8 minutes) and discussants (3 minutes). Speakers will be notified when their 8 minutes are up. At exactly the ninth minute of the presentation the slides will disappear from the screen. In this case discussants, will be allowed to ask the speaker only one question. Each one-hour interdisciplinary *in*-session includes 4 moderators (one cardiologist, one neuroradiologist, one

radiologist, one vascular surgeon) who will also serve as discussants (3 minutes) for the 4 speakers (8 minutes) following the same format of the scientific *in*-sessions. Each interdisciplinary *in*-session will be opened by the *in*-key interdisciplinary lecture of 10 minutes (one moderator/presenter, one speaker) and it will be closed without a general discussion. Presentation video-clips lasting 90-180 seconds will open every part of the *in*-congress according to the *in*-entertainment modality: a video-clip of a recorded interventional/endovascular procedure of one of the 4 speakers will be broadcasted before each *in*-session. The *in*-key honorary lectures (10 minutes) will have one moderator and one speaker: in this time, moderators will be allowed to ask the speaker up to 2 questions. *In*-dustry focus sessions consist of 6 presentations each day for a total of 12 presentations (10 minutes), proposed by the companies and approved by the *in*-congress scientific committee. Moderators of *in*-key honorary lectures and *in*-dustry focus must ensure that presentation times are respected. Slides preparation must adhere to the *in*-congress template: a maximum of 15-16 slides for the presentations and 18-20 slides for the *in*-key honorary (and interdisciplinary) lectures is highly recommended. Speakers should provide their slides to the technical staff in the Faculty room at least 2 hours before the session begins. Speakers scheduled for the first session of the morning are kindly invited to deliver their slides the day before.

in-novation challenge rules

In-novation challenge (“*New frontiers of the next generation*”) has been designed to maintain attendees interest until the end of in-congress. A total of 12 innovative abstracts proposed by 12 young speakers (less than 36 years) will be preliminary selected by 12 interventional/endovascular experts, 3 from each discipline (cardiology, neuroradiology, radiology, vascular surgery), who will also serve as moderators for the *in-novation challenge*. The moderators will be responsible for strictly ensuring that presentation timings are respected (the *in-novation challenge* does not include discussions). Slides preparation must adhere

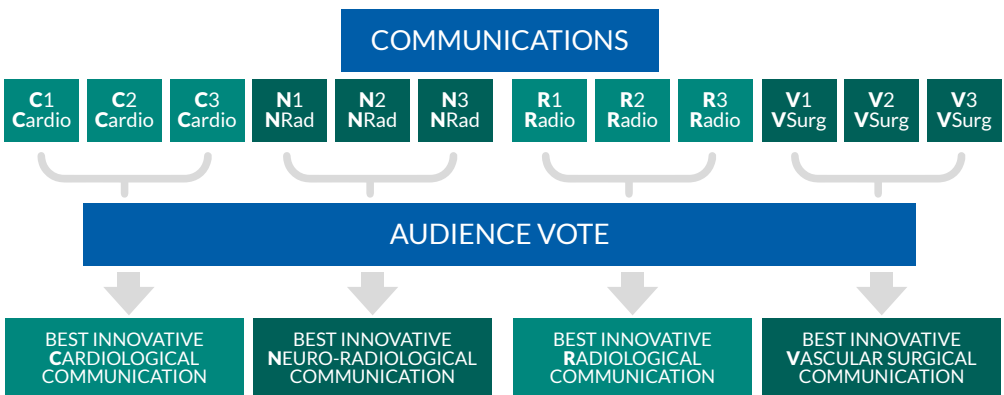

with the *in-congress* template: a maximum of 9 slides is highly recommended. Strict adherence to the presentation time (4 minutes) is strongly recommended. Speakers will be notified when their 3.30 minutes are up. At exactly the fourth minute of the presentation the slides will disappear from the screen. After the presentations, all attendees will be invited to vote for the best innovative communication in each field cardiology, neuroradiology, radiology, vascular surgery. The 4 best “innovators” will be finally awarded with a commemorative plaque (see summary table of *in-novation challenge*).

in-entertainment organization

In-entertainment has been designed and organized by Massimo Venturini with the help of Caterina Corni (modern and oriental art curator), Umberto Corni (professional photographer, video-clip *in-congress* maker) and Nadia Falcone (soundtrack curator and vocalist). After the appreciation of all participants in the first edition, the *in-entertainment* is also proposed again

in the second edition with some novelties. The aim of the *in-entertainment* is to create an innovative atmosphere made of images, sounds, flavours that we hope will make the intervals between presentations more enjoyable and pleasant. All the details of the *in-entertainment* will be revealed during the *in-congress*.

Summary table of *in-novation challenge* “New frontiers of the next generation!”

VILLE PONTI CONGRESS CENTER, WHERE HISTORY AND MODERNITY MERGE...

The second edition of the *in-congress* will take place in Varese in the evocative atmosphere of Ville Ponti Congress Center.

Ville Ponti Congress Center is a glamorous complex, made up of three historic houses, Villa Napoleonica, Villa Andrea and Sellerie, surrounded by a large garden with a spectacular view, equipped with the most modern congress technologies, a conference room with 399 seats and 600 parking spaces.

Ville Ponti Congress Center
Piazza Litta 2
21100 Varese IT
